

## UTKAL INSTITUTE OF ENGINEERING & TECHNOLOGY

| DISCIPLINE:  | SEMESTER:   |  |         |                |
|--|---|--|---------|----------------|
| Civil Engineering                                      | 3 <sup>rd</sup> Sem                                 | NAME OF THE TEACHING FACULTY:Er. Tejaswini Das                                 |         |                |
| SUBJECT: Building Material And Construction Technology | No of Days/Per week class allotted: 5 Class P/W(75) | Semester From Date:15/09/2022  To Date:22/12/2022  No. Of Weeks: <b>15</b>     |         |                |
| WEEK   | CLASS DAY   | THEORY TOPICS <u>PART-A</u> (BUILDING MATERIAL)                                | REMARKS |                |
|  | 1 <sup>st</sup>                                     | Stone: Introduction to Stone as a Building Material                            | Date    | Dean/Principal |
| 1 <sup>st</sup>  | 2 <sup>nd</sup>                                     | Classification of rock, uses of stone, natural bed of stone                    |         |                |
|  | $3^{\mathrm{rd}}$                                   | Qualities of good building stone<br>And Dressing of stone                      |         |                |
|  | 4 <sup>th</sup>                                     | Characteristics of different types of stone and their uses.                    |         |                |
|  | 5 <sup>th</sup>                                     | Revision about last class Characteristics of Stone.                            |         |                |
| 2 <sup>nd</sup>  | 1 <sup>st</sup>                                     | Bricks: Brick earth – its composition  |         |                |
|  | 2 <sup>nd</sup>                                     | Brick making – Preparation of brick earth, Moulding.                           |         |                |
|  | $3^{ m rd}$   | Drying, Burning in kilns (continuous Process).                                 |         |                |
|  | 4 <sup>th</sup>                                     | Classification of bricks, size of traditional and modular bricks.              |         |                |
|  | 5 <sup>th</sup>                                     | Qualities of good building bricks  |         |                |
|  | 1 <sup>st</sup>                                     | Revision of Last week Class About<br>Bick and its Process of<br>Manufacturing. |         |                |
|  | 2 <sup>nd</sup>                                     | Cement, Mortar and Concrete:  Cement: Types of cements,  Properties of cement  |         |                |

| 3 <sup>rd</sup> | 3 <sup>rd</sup> | Manufacturing of cement And reminding terms like Cement, Mortar & Concrete        |  |
|-----------------|-----------------|---|--|
|                 | 4 <sup>th</sup> | Importance and application of blended cement with fly ash and blast furnace slag. |  |
|                 | 5 <sup>th</sup> | Mortar: Definition and types of mortar.   |  |
|                 | 1 <sup>st</sup> | Sources and classification of sand,<br>Bulking of sand.                           |  |
|                 | 2 <sup>nd</sup> | Use of gravel, morrum and fly ash as different building material.                 |  |
| $4^{\rm th}$    | 3 <sup>rd</sup> | Concrete: Definition and composition- Water cement ratio                          |  |

| •               |                 |   |  |
|-----------------|-----------------|---|--|
|                 | 4 <sup>th</sup> | Workability, mechanical properties and grading of aggregates, mixing, placing, compacting and curing of concrete. |  |
|                 | 5 <sup>th</sup> | Revision of Last Class About Water Cement Ratio and Workability of Concrete                                       |  |
|                 | 1 <sup>st</sup> | Other Construction Materials: Timber: Classification and Structure of timber                                      |  |
|                 | 2 <sup>nd</sup> | Seasoning of timber – Importance.   |  |
| 5 <sup>th</sup> | 3 <sup>rd</sup> | Characteristics of good timber.   |  |
|                 | 4 <sup>th</sup> | Clay products and refractory materials – Definition and Classification.   |  |
|                 | 5 <sup>th</sup> | Properties and uses of refractory materials- tiles, terracotta, porcelain glazing.                                |  |
|                 | 1 <sup>st</sup> | Iron and Steel: Uses of cast iron, wrought iron, mild steel and tor steel.  |  |

| _               |                   |  | <br> |
|-----------------|-------------------|--|------|
| $6^{ m th}$     | $2^{\mathrm{nd}}$ | Revision of Last Class About<br>Characteristics of Good Timber<br>And Properties And Uses of<br>Refractory Material. |      |
|                 | 3 <sup>rd</sup>   | Surface Protective Materials   |      |
|                 | 4 <sup>th</sup>   | Composition of Paints, enamels, varnishes.   |      |
|                 | 5 <sup>th</sup>   | Types and uses of surface protective materials like Paints.  |      |
|                 | 1 <sup>st</sup>   | Revision of Last week Class about<br>Surface Protective Material like<br>Paints, Enamels and Varnishes.              |      |
|                 | 2 <sup>nd</sup>   | Types of Enamels, Varnishes,<br>Distempers   |      |
|                 | 3 <sup>rd</sup>   | Types of Emulsion, French polish and Wax Polish.   |      |
| 7 <sup>th</sup> | 4 <sup>th</sup>   | Discussing the Various materials that Can be used to protect the Surface.  |      |
|                 | 5 <sup>th</sup>   | Some important Questions About Building Material To be Discussed.  |      |
|                 |                   | PART-B<br>(CONSTRUCTION<br>TERCHNOLOGY)  |      |

| 8 <sup>th</sup>  | 1 <sup>st</sup> | Introduction: Buildings and classification of buildings based on occupancy.      |  |
|------------------|-----------------|--|--|
|                  | 2 <sup>nd</sup> | Different components of a building. Site investigation – objectives              |  |
|                  | 3 <sup>rd</sup> | Site reconnaissance and explorations   |  |
|                  | 4 <sup>th</sup> | Foundations: Concept of foundation and its purpose                               |  |
|                  | 5 <sup>th</sup> | Types of foundations – shallow and deep.   |  |
|                  | 1 <sup>st</sup> | Shallow foundation-constructional details of: Spread foundations for walls.      |  |
| 9 <sup>th</sup>  | 2 <sup>nd</sup> | Thumb rules for depth and width of foundation and thickness of concrete block.   |  |
|                  | 3 <sup>rd</sup> | Deep foundations: Pile foundations-their suitability.                            |  |
|                  | 4 <sup>th</sup> | classification of piles based on materials                                       |  |
|                  | 5 <sup>th</sup> | Function and method of installation.   |  |
|                  | 1 <sup>st</sup> | Walls & Masonry Works: Purpose of walls  |  |
| 10 <sup>th</sup> | 2 <sup>nd</sup> | Classification of walls – load bearing, non-load bearing walls, retaining walls. |  |
|                  | 3 <sup>rd</sup> | Classification of walls as per materials of construction: brick, stone           |  |
|                  | 4 <sup>th</sup> | Reinforced brick, reinforced concrete, precast                                   |  |
|                  | 5 <sup>th</sup> | Hollow and solid concrete block and composite masonry walls (Concept Only).      |  |

| 11 <sup>th</sup> | $1^{\mathrm{st}}$ | Partition Walls: Suitability and uses of brick and wooden partition walls  |  |
|------------------|-------------------|--|--|
|                  | 2 <sup>nd</sup>   | Brick masonry : Definition of different terms  |  |
|                  | 3 <sup>rd</sup>   | Bond – meaning and necessity: English bond for 1and 1-1/2 Brick thick walls.   |  |
|                  | $4^{\rm th}$      | T, X and right angled corner junctions. Thickness for 1 and 1-1/2 brick square pillars in English bond   |  |
|                  | 5 <sup>th</sup>   | Stone Masonry  |  |
| 12 <sup>th</sup> | 1 <sup>st</sup>   | Glossary of terms –String course, corbel, cornice, block-in-course, grouting, mouldings  |  |
|                  | 2 <sup>nd</sup>   | Templates, throating, through stones, parapet, coping, pilaster and buttress   |  |
|                  | 3 <sup>rd</sup>   | Doors, Windows And Lintels: Glossary of terms used in doors and windows  |  |
|                  |                   | <b>Doors</b> – different types of doors  |  |
|                  | 4 <sup>th</sup>   | Windows – different types of windows   |  |
|                  | 5 <sup>th</sup>   | Purpose of use of arches and lintels.  |  |
|                  | 1 <sup>st</sup>   | Floors, Roofs and Stairs : Floors: Glossary of terms   |  |
| 13 <sup>th</sup> | 2 <sup>nd</sup>   | Types of floor finishes – cast-in-<br>situ, concrete flooring(monolithic,<br>bonded)   |  |
|                  | 3 <sup>rd</sup>   | Terrazzo tile flooring, cast in situ Terrazzo flooring, timber flooring (Concept only)   |  |
|                  | 4 <sup>th</sup>   | Roofs: Glossary of terms, Types of roofs, concept and function of flat, pitched, hipped and Sloped roofs   |  |
|                  | 5 <sup>th</sup>   | Stairs: Glossary of terms; Stair case, winder, landing, stringer, newel, baluster, rise, tread, width of stair case, hand rail, nosing, head room, mumty room. |  |

| 14 <sup>th</sup> | 1 <sup>st</sup>   | Various types of stair case – straight flight, dog legged, open well, quarter turn, half turn (newel and geometrical stairs)   |  |
|------------------|-------------------|--|--|
|                  | 2 <sup>nd</sup>   | Bifurcated stair, spiral stair, cantilever stair, tread riser stair.   |  |
|                  | $3^{\mathrm{rd}}$ | Protective, Decorative Finishes, Damp and Termite Proofing:  |  |
|                  |                   | Plastering – purpose – Types of plastering   |  |
|                  | 4 <sup>th</sup>   | Types of plaster finishes – Grit finish, rough cast, smooth cast.  |  |
|                  | 5 <sup>th</sup>   | Sand faced, pebble dash, acoustic plastering and plain plaster etc.  |  |
| 15 <sup>th</sup> | 1 <sup>st</sup>   | Proportion of mortars used for different plasters, preparation of mortars, technique of plastering and curing  |  |
|                  | 2 <sup>nd</sup>   | Pointing – purpose –Types of pointing  Painting – objectives – method of painting new and old wall surfaces, wood surface and metal surfaces – powder coating and spray painting on metal surfaces |  |
|                  | 3 <sup>rd</sup>   | White washing — Colour washing — Distempering — internal and external walls.  Damp and Termite proofing — Materials and Methods.   |  |
|                  | 4 <sup>th</sup>   | Concept of green building: Introduction to Energy Management and Energy Audit of Buildings. Aims of energy management of buildings.  |  |
|                  | 5 <sup>th</sup>   | Types of energy audit, Response energy audit questionnaire, Energy surveying and audit report.   |  |

DEAN PRINCIPAL
